Glossary of Terms

The following are terms and their associated meanings that may be found within the plan.

ADT: Average Daily Traffic. This is the typical number of vehicles traveling a section of road over the course of a normal 24-hour weekday.

Capacity: The maximum sustainable flow rate at which vehicles can be expected to traverse a uniform segment of a lane or roadway during a specified time period under given roadway, geometric, traffic, environmental and control conditions. Expressed in this report as vehicles per hour per lane of roadway, or vehicles per hour entering an intersection,

CATS: The Chicago Area Transportation Study.

County: The County of Kane, State of Illinois.

CRIP: The Comprehensive Road Improvement Plan for Impact Fees.

FY: Fiscal Year.

IDOT: The Illinois Department of Transportation.

ISTHA: The Illinois State Toll Highway Authority.

KCDOT: The Kane County Division of Transportation.

Lane-Miles: The number of lanes multiplied by the length of a roadway segment.

Local Option MFT: Motor fuel tax imposed by the County and collected at the pump for the purposes of road improvements on roads under the jurisdiction of Kane County.

LOS: Level of Service. A qualitative measure describing operational conditions within a traffic stream, based on service measures such as speed and travel time, freedom to maneuver, traffic interruptions, comfort and convenience. For roadways, LOS is typically expressed in terms of average operating speed ranging from LOS A (highest speed) to LOS F (lowest speed, or failure). Intersection LOS is typically based on delay time; the greater the delay time, the worse the level of service. Again, poorest performance receives the lowest LOS grade (E or F).

MFT: Motor Fuel Tax. The State allocation of revenues collected on gasoline at the pump disbursed to Kane County.

NIPC: The Northeastern Illinois Planning Commission.

VMT: Vehicle Miles of Travel. This is the average daily traffic (ADT) on a roadway segment or group of roadway segments, multiplied by the length of the roadway segment in miles.

Preface

Impact fee programs are widely used by local governments throughout the United States to offset the high cost of providing fire, police, water, sanitary, school, road, and other services to new residents and businesses locating within their jurisdiction. These programs are used particularly in fast growing suburban communities, locations with high tourism or high retirement development and areas of extreme environmental sensitivity. By and large, the fees collected do not cover all the costs a unit of government accrues in providing a service. These fees do allow the implementing agency the opportunity to use its primary funding sources such as property taxes, motor fuel taxes, and state and federal assistance for the purpose of maintaining the existing infrastructure, correcting existing deficiencies in the infrastructure, and supplementing other funding sources to enable construction of improvements to the capacity of the infrastructure.

In Illinois, revenues available for highway purposes are strictly limited by statute. The size of the Motor Fuel Tax is limited and Kane County recently raised its local option MFT to the maximum amount. Property tax levies are limited by the Property Tax Extension Limitation Law. The County aggressively seeks outside funding for highway improvement projects from the state and Federal governments. Impact fees are needed to help fill the gap between the extensive needs and limited tax revenues.

General Goals

The *Road Improvement Impact Fee Law* created by the State of Illinois in 1989 cites two general goals for those agencies implementing impact fee programs in Illinois.

- 1. "...the imposition of such road improvement impact fees is designed to supplement other funding sources so that the burden of paying for road improvements can be allocated in a fair and equitable manner."
- 2. "...to promote orderly economic growth throughout the State by assuring that new development bears its fair share of the cost of meeting the demand for road improvements through the imposition of road improvement impact fees."

Kane County supports these goals through the publication of this Comprehensive Road Improvement Plan for Impact Fees.

Objectives of the Plan

The ten year Comprehensive Road Improvement Plan is a document required of each unit of local government wishing to implement the Road Improvement Impact Fee Law (605 ILCS 5/5-901 to 5/5-919). The Plan's primary function is to support the Law's goals by describing the existing roadway network and traffic conditions, quantifying the anticipated new development upon which the estimated roadway improvements are based, identifying available funding sources, and listing the road improvements anticipated to be needed, along with their estimated costs and anticipated year of construction.

Because the Comprehensive Road Improvement Plan is designed to pertain only to roads under Kane County jurisdiction, recommendations for short and long-range improvements on roads maintained solely by other jurisdictions are not included in the recommended project list in Section 4. Intersections of facilities under Kane County jurisdiction and facilities under jurisdiction of other agencies are included.

Guide to the Plan

In accordance with the provisions of the Road Improvement Impact Fee Law, the Comprehensive Road Improvement Plan (CRIP) is comprised of seven sections. The following synopsis gives the reader a general idea of what is found in each section.

Section 1: Existing Highway Network

This section provides a description of all existing roads, streets or highways under the jurisdiction of the County, a list of deficiencies as of 2002 (the year of the County's initial CRIP), and an estimate of all costs related to curing the existing deficiencies, including but not limited to the upgrading, updating, improving, expanding or replacing of such roads, streets or highways and the current level of service of the existing roads, streets and highways.

Section 2: Commitment to Cure Existing Deficiencies

This section provides that the County is committed to constructing the improvements identified in Section 1 as being needed to cure the existing deficiencies in the County Highway network, where practicable.

Section 3: Land Use Assumptions

This section presents the land use assumptions update adopted by the Kane County Board for this plan.

Section 4: Proposed Roadway Improvement Plan

This section provides a description of the County highways proposed to be improved, expanded, enlarged or constructed to serve new development identified in the Land Use Assumptions, together with an estimate of all costs related to the improvement, expansion, enlargement or construction of those County highways.

Section 5: Funding Sources

This section identifies all sources and levels of funding available to the County for the financing of the highway improvements identified in Sections 1 and 4.

Section 6: Intergovernmental Agreements

As the County's proposed Road Improvement Impact Fee Ordinance provides only for the improvement of County Highways, this Section simply notes that any improvements to highways, roads or streets under another agency's jurisdiction may be funded with Impact Fees

only to the extent needed to ensure the efficient operation of an adjacent intersection with a County Highway.

Section 7: Proposed Road Improvement Schedule

This section provides a schedule setting forth estimated dates for commencing construction of all highway improvements identified in the Comprehensive Road Improvement Plan.

Section 1: Existing Highway Network

As of 2005, the Highway system in Kane County consisted of over 2,130 miles of roadways, including Interstate Highways, Freeways and Expressways, Arterials, Collectors and Local Streets. These roads are under the jurisdiction of the Illinois State Toll Highway Authority, the Illinois Department of Transportation (IDOT), Kane County, over thirty Municipalities, and sixteen Township Road Districts. Kane County has jurisdiction over approximately 300 miles of highways, primarily arterials and collectors, as defined by IDOT. Highways under the jurisdiction of Kane County are listed in Table 1-1 and are shown on Exhibit 1-1.

Figure 1-1: Kane County Highways

Figure 1-2: Kane County Impact Fee Service Areas

Network Performance Measures

Transportation engineers measure the performance of a segment of highway or an intersection in terms of level of service (LOS) during the highest traffic period of the day, usually the afternoon peak hour of traffic. The level of service of a highway segment is measured in terms of average operating speed. The level of service of an intersection is measured in terms of average vehicular delay. Levels of service range from A, representing optimal conditions, to F, representing heavy congestion. Segments and Intersections that operate at a level of service of E or F are considered deficient due to excessive travel delays. For example, a Class I urban highway, typical of a Kane County Arterial in the urbanized portion of the county, and with a typical free flow operating speed of 50 MPH, would be rated according Table 1-2. Signalized intersections are rated in accordance with Table 1-3. These ratings are based on national standards adopted by the Transportation Research Board.

Table 1-2: Urban Highway Level of Service

LOS	Average Travel Speed (MPH)
А	>42
В	>34-42
С	>27-34
D	>21-27
Е	>16-21
F	<=16

Table 1-3: Signalized Intersection Level of Service

LOS	Average Vehicular Delay (Seconds)
Α	<10
В	10-20
С	20-35
D	35-55
E	55-80
F	>80

Existing Deficiencies

When Kane County adopted its first Comprehensive Road Improvement Plan for Impact Fees, the County identified six highway segments and sixteen intersections that operated at a deficient level of service. These are identified in Tables 1-4 and 1-5. These tables also identify the reason for the deficiency and the estimated cost to bring the intersection or roadway segment into an acceptable level of service based on 2002 traffic volumes.

Table 1-4: Kane County Highway Segments with a Deficient LOS in 2002

Proj.	Roadway	From	То	LOS	Reason	Est. Cost
	Big Timber Road	IL-72	Damisch Rd.	Е	Heavy westbound volumes	See Table 1-5, project #47
19	Keslinger Road	Peck Rd.	Randall Rd.	Ш	Heavy eastbound volumes	\$2,100,000
	LaFox Road	Keslinger Rd.	IL-38	E	Heavy northbound volumes at IL-38	Improvement Completed
	LaFox Road	IL-38	Campton Hills Rd.	E	Heavy southbound volumes at IL-38	Improvement Completed
	Mooseheart Road	Randall Rd.	IL-31	ш	Heavy eastbound volumes	See Table 1-5, project #6
	Kirk Road	IL-56	Wind Energy Pass	E	Heavy northbound and southbound volumes	See Table 1-5, project #85

Table 1-5: Kane County Intersections with a Deficient LOS in 2002

Proj.	Intersection	LOS	Reason for Deficiency	Est. Cost
85	Kirk Rd. @ IL-56	F	Heavy northbound and southbound approach volumes	\$4,000,000
33	Burlington Rd. @ IL-47	F	Heavy approach volumes on IL-47	\$1,700,000
47	Big Timber Rd. @ IL-72	F	Heavy westbound and southbound approach volumes	\$3,500,000
	Huntley Rd. @ Square Barn Rd.	F	Heavy westbound approach and eastbound left turn volumes	Improvement Completed
26	Randall Rd. @ Crane Road	F	Heavy northbound and southbound approach volumes	\$1,100,000

Section 2: Commitment to Cure Existing Deficiencies

Through adoption of this Comprehensive Road Improvement Plan, the County of Kane is committed to correcting, to the extent practicable, the deficiencies in the highway system identified in Section 1 of this Plan. The projects needed to correct the existing deficiencies are identified in Section 4, and a schedule for their implementation can be found in Section 7.

As part of its Annual Report on the Impact Fee Program, the Division of Transportation will report to the Impact Fee Advisory Committee and County Board as to the County's progress in addressing the existing deficiencies.

Section 3: Land Use Assumptions

In updating the Land Use Assumptions previously adopted by the Kane County Board, an analysis was first performed of population and employment growth in Kane County from 2000 to 2004. These trends are depicted in Figures 3-1 and 3-2, respectively. This analysis indicates that over the past five years, Kane County has experienced population growth of approximately 4% per year and employment growth of approximately 3% per year, although employment growth was much more uneven due to general economic conditions in the Chicago region.

Figure 3-1: Kane County Population Growth, 2000 to 2004

Source: US Census

Figure 3-2: Kane County Employment Growth, 2000 to 2004

Looking forward, it is anticipated that both population and employment growth will slow, compared to current growth rates, over the next twenty-five years so that much of Kane County's population and employment growth between 2005 and 2030 will occur earlier in that time period, as indicated in Figures 3-3 and 3-4.

Figure 3-3: Kane County Population Growth Forecast

Utilizing these forecasts, together with specific land use data obtained from Kane County municipalities, the Land Use Assumptions contained in Tables 3-1 through 3-4 were developed and, following public input, were adopted by the Kane County Board.

Section 4: Proposed Roadway Improvement Plan

Following adoption of the ten year Land Use Assumptions by the Kane County Board, projected traffic volumes on County highways were estimated using a transportation planning model. Resulting traffic volumes were used to identify highway improvement projects needed to accommodate future development and preserve an acceptable level of service on County highways. The cost of those projects, including engineering, land acquisition and construction were estimated. The plan was reviewed by the Impact Fee Advisory Committee and municipal comments were solicited. After extensive review and discussion, the projects identified in Table 4-1 and depicted in Figure 4-1 were recommended by the Impact Fee Advisory Committee. For those projects that in whole or in part are needed to address deficiencies identified in Section 1, the portion of the project cost needed to address that deficiency is not included in the cost calculation element of the Impact Fee calculation.

Table 4-1: Proposed Roadway Improvement Plan

Proj. #	Route	Location/Limits	Project Scope*	Est. Cost (\$Mill)	IF Eligible**	IF Cost (\$Mill)

Figure 4-1: Proposed Roadway Improvement Plan

Table 4-2: Scope of Proposed Improvements

Proj. #	Scope
1	Granart Road – Jericho to US-30 / Dauberman
	Eligible Scope Includes: Addition of left turn lanes on all legs at the Jericho Road and US-30 intersections; addition of left turn lanes on Granart at Rhodes Avenue; construction of approximately 3,200 lineal feet of new 2-lane rural roadway on a new north-south alignment from the intersection of Dauberman and US-30, due south to existing Granart, including a grade separation at the BNRR and US 30; profile adjustment on Dauberman to accommodate vertical alignment of railroad overpass; realignment of the east leg of the new intersection formed by the Dauberman extension. Anticipate IDOT cost participation.
2	Harter Road at IL-47
	Eligible Scope Includes: Installation of permanent traffic signals; 4" asphalt overlay; dual left turn lanes on northbound IL-47; extend existing right turn lane on SB IL-47; widen Harter Road. Anticipate IDOT cost participation on IL-47 legs.
3	Bliss Road – IL-47 to Healy Road
	Eligible Scope Includes: Minor improvements on north, south and west legs of IL-47/Bliss intersection; reconstruction of Bliss to a 3-lane and where appropriate to a 4-lane cross-section from IL-47 to a point south of Healy; Replacement of the Blackberry Creek bridge with a four thru lane cross-section; Left turn lane on Bliss at IL-47; various left turn lanes along Bliss Road. Anticipate IDOT cost participation on IL-47 legs. Does not include improvements at Healy Road – see project #10.
4	Orchard Road – US-30 to Jericho Road
	Actual Termini – Brentwood to Jericho Road. Eligible Scope Includes: Reconstruction of Orchard to a 4-lane cross-section; cross street channelization at Aucutt and Jericho.
6	Mooseheart Road at IL-31
	Non-eligible Scope Includes: Left turn and right turn channelization and installation of signals at Mooseheart; installation of northbound and southbound left turn lanes on IL-31. Anticipate IDOT cost participation on IL-31 legs.
8	Main Street at IL-47
	Eligible Scope Includes: Addition of left turn lanes on all four legs; Replacement of Main Street bridge over Blackberry Creek; Lengthening Route 47 Blackberry Creek Box Culvert; traffic signal installation. Anticipate IDOT participation on IL-47 legs.
9	Bunker Road at Main Street
	Eligible Scope Includes: Addition of left turn lanes on all three legs and a westbound right turn lane; Installation of permanent traffic signals.
10	Bliss Road – Healy Road to Fabyan/Main Street
	Eligible Scope Includes: Intersection improvement at Bliss and Healy, plus northbound right turn lane; Widening and channelization on portions of Bliss to a four thru lane cross-section; Installation of traffic signals at Healy; Realignment of Bliss Road to intersect with realigned Fabyan Parkway.

Proj. #	Scope
11	Main Street at Nelson Lake Road Non-eligible Scope Includes: Eastbound and northbound right turn lanes; westbound left turn lane. See project #71.
12	Main Street at Deerpath Road Eligible Scope Includes: Channelization on Main Street and on Deerpath; Installation of permanent traffic signals.
13	Fabyan Parkway – Main Street to Randall Road Eligible Scope Includes: Realignment of Fabyan to intersect with realigned Bliss; Improvement of the Fabyan/Main/Bliss intersection with turn lanes on all legs; Widening Fabyan to a four thru lane cross-section; Improvement of the alignment at Hughes Road; Addition of left turn lanes and traffic signals on Hughes Road, Kaneville Road, and Wenmoth Road. For Kaneville Road improvements see project #14.
14	Kaneville Road at Fabyan Parkway Non-eligible Scope Includes: Westbound and southwest bound right turn lanes (\$100K). Eligible Scope Includes: Addition of a left turn lane on Kaneville Road and TSI (\$200K). Project does not include traffic signals at Peck Road. See project #89.
16	Fabyan Parkway from IL-31 to IL-25 Eligible Scope for Fabyan Parkway at IL 31 includes: Four thru lanes cross-section, dual left turn lanes and single right turn lanes on both legs. On IL 31: four thru lane cross-section, single left turn lanes and single right turn lanes on both legs. Includes new traffic signal installation. Anticipate IDOT cost participation on IL-31 legs. Eligible scope for Fabyan Parkway at IL-25 includes: Four thru lanes cross-section, single left turn lanes and single right turn lanes on both legs. On IL 25: Two thru lane cross-section, single left turn lanes on both legs, and a southbound right turn lane. Includes new traffic signal installation, some widening on Fabyan Parkway bridge to four thru lanes. Anticipate IDOT cost participation on IL-25 legs.
17	Fabyan Parkway – Kirk Road to Paramount Parkway Non-eligible Scope Includes: Right turn lanes for eastbound and northbound at the Kirk and Fabyan intersection and traffic signal installation at Fabyan and Paramount. Eligible Scope Includes: Limits approximately 300 feet west of Kirk Road to Paramount Parkway intersection. Addition of center left turn lane on Fabyan from Kirk to Paramount; Reconstruction of Kirk Road intersection, anticipated to be full improvement including three thru lanes, double left turn lanes and right turn lanes on all approaches.
18	Bunker Road Realignment with LaFox Road Eligible Scope Includes: Extension of Bunker Road on a 2-lane cross-section north to intersection with existing LaFox Road approximately ½ mile north of UPRR; Improvement of the Bunker/Keslinger intersection to a 3 lane cross-section on Keslinger and 3-lane cross-section on Bunker; Improvement of the Bunker/Pottawatomie Road intersection; Improvement of the Bunker/Potter Road intersection; Roundabout at Bunker Road and Potter Road; Roundabout at Bunker Road and New LaFox Road; Traffic signal installation at the intersection of Bunker and Keslinger.

labit	e 4-2 (Cont.)
Proj. #	Scope
19	Keslinger Road at Randall Road
	Non-eligible Scope Includes: Dual left turn lanes for westbound Kaneville/South Street and westbound right turn lane. Randall Road intersection capacity improvements are eligible for the use of impact fees, see project #75.
20	Kirk Road at IL-38
	Eligible Scope Includes: Intersection Reconstruction, including three thru lanes in each direction, double left turn lanes and right turn lanes on all approaches; Widening of UPRR bridge is necessary. Anticipate IDOT cost participation on IL-38 legs.
21	Anderson Road – Keslinger to IL-38
	Eligible Scope Includes: Project includes construction of Anderson Road on a new alignment with a 2-lane cross-section from Keslinger to IL 38, with left turn lanes at North St., Hicks St. and Prairie Valley St.; Intersection improvements at Anderson at IL 38 and Keslinger at Anderson; Construction of overpass over the UPRR rail yard. Anticipate IDOT cost participation and Federal HPP funds.
23	LaFox Road at Campton Hills Road
	Eligible Scope Includes: Addition of left turn lanes on all four legs; Lengthening of the Mill Creek box culvert; Installation of traffic signals.
24	Randall Road at IL-64
	Intersection Improvement completed 2007. IDOT cost participation.
25	Beith Road at IL-47
	Eligible Scope Includes: Addition of left turn lanes on all four legs and installation of traffic signals. Anticipate IDOT and township/municipal cost participation on IL-47 legs.
26	Randall Road at Crane Road
	Non-eligible Scope Includes: Crane Road turn lanes and permanent traffic signal installation.
27	Empire Road at IL-47
	Eligible Scope Includes: Addition of left turn lanes on all four legs; Realignment of Hanson Road with left turn lanes on Empire at Hanson; Extended left turn lane on north leg of IL-47 to school entrance; Traffic Signal installation. Anticipate IDOT and possible municipal cost participation.
28	Burlington Road at Old LaFox Road
	Eligible Scope Includes: Addition of left turn lane for east and south approaches and installation of traffic signals.
29	Corron Road at Burlington Road
	Eligible Scope Includes: Addition of left turn lanes for north and west approaches, and a right turn lane on the east approach, and installation of traffic signals.
30	Randall Road at Red Gate Road
	Eligible Scope Includes: Anticipated configuration consists of right turn lanes on the north and south approaches, and left turn lanes on the east and west approaches, and new traffic signals.
31	Dunham Road at Kirk Road
	Eligible Scope Includes: New traffic signal installation.

Droi	Coope
Proj. #	Scope
32	Silver Glen Road at IL-31
	Non-eligible Scope Includes: Channelization on all legs.
	Anticipate IDOT cost participation on IL-31 legs.
33	Burlington Road at IL-47
	Non-eligible Scope Includes: Single left turn lane and right turn lane on all legs.
	Eligible Scope Includes: Traffic signal installation. Anticipate IDOT cost participation on IL-47 legs.
34	Randall Road at ICRR
	Eligible Scope Includes: Construction of a new 6-lane underpass carrying Randall Road under the ICRR.
35	Stearns Road Bridge Corridor
	Eligible Scope Includes: Construction of a 4-lane roadway on new alignment from Randall Road to Dunham Road, full intersection improvements at Randall Road and McLean and Fox River Bridge construction. Includes IDOT cost participation and several other State and/or Federal funding sources. See project #36.
36	Dunham Road at Stearns and IL-25
	Eligible Scope Includes: Intersection improvement and roadway reconfiguration as part of the overall Stearns Road bridge corridor project. Includes IDOT cost participation and several other State and/or Federal funding sources. See project #35.
37	McLean Road – Hopps Road to Bowes Road
	Eligible Scope Includes: Widening McLean to a 4-lane cross-section from Hopps/Spring to Bowes Road with appropriate intersection improvements. Approved for the use Federal STP funding.
38	Plato Road at IL-47
	Eligible Scope Includes: Addition of turn lanes on all approaches and installation of traffic signals. Anticipate IDOT cost participation on IL-47 legs.
39	Randall Road – South Street to Highland Avenue
	Non-eligible Scope Includes: Randall Road at US 20/Foothill Ramp; Northbound Randall to eastbound US 20; Southbound Randall to Westbound US 20; Northbound Randall to Eastbound Foothill; Southbound Randall to Eastbound US 20.
	Eligible Scope Includes: Construction of Randall Road on a six lane cross-section from 1,000' south of South Street to approximately 1,000' north of Highland Avenue. Includes widening the US-20 overpass and interchange improvements. As well as major intersection improvements at South Street and Highland Avenue.
40	Randall Road – Highland Avenue to Royal Boulevard
	Eligible Scope Includes: Construction of Randall Road on a six lane cross-section from approximately 1,000 feet north of Highland Avenue to approximately 500 feet north of Royal Boulevard. Likely combined with Project 39 for construction staging.

Proj. #	Scope
41	Plank Road at IL-47
	Eligible Scope Includes: Addition of left turn lanes on all approaches and installation of traffic signals. Anticipate IDOT cost participation on IL-47 legs.
42	Plank Road at Russell Road
	Eligible Scope Includes: Addition of turn lanes on all approaches and installation of traffic signal installation.
43	Randall Road – Royal Boulevard to Big Timber Road
	Eligible Scope Includes: Construction of Randall Road on a six lane cross-section from approximately 500 feet north of Royal Boulevard to approximately 1,000 feet north of Big Timber Road. Includes widening of the railroad overpass and an intersection improvement at Big Timber Road.
44	Big Timber Road – Coombs Road to Randall Road
	Eligible Scope Includes: Widening of Big Timber Road to a 4-lane cross-section from approximately 800 feet west of Coombs Road to approximately 1000 feet west of Randall Road (Randall Road/Big Timber Road intersection improved under project #43), and traffic signal installations at Coombs and Tyrell.
45	French Road Realignment/Extension to Harmony Road – IL-72 to Allen Road
	Eligible Scope Includes: Extension of French Road with a 2-lane cross-section on a new alignment from IL-72 to the intersection of Harmony and Allen. Includes intersection improvements at IL-72 and Allen with turn lanes on all four legs and traffic signals at both intersections. Also includes a 2-lane overpass over the Soo Line RR.
46	Big Timber Road – Ketchum Road to Manning Road
	Eligible Scope Includes: Widening of Big Timber Road to a 4-lane cross-section from approximately 800 feet west of Ketchum Road to approximately 800 feet west of Manning Road. Includes intersection improvements at Ketchum Road, US-20 (Brier Hill Road), Reinking Road, Sandwald Road, and IL-47. US-20 and IL-47 expected to be four thru lanes cross-section at the intersection with turn lanes. Traffic signals to be installed at all of the above locations, except Sandwald Road.
47	Big Timber Road – Manning Road to Damisch Road
	Non-eligible Scope Includes: Single left turn lanes and right turn lanes at IL 72 and traffic signal installation at IL 72.
	Eligible Scope Includes: Widening Big Timber Road to a 4-lane cross-section from approximately 800 feet west of Manning Road to approximately 800 feet west of Damisch Road.
48	Big Timber Road – Damisch Road to Coombs Road
	Eligible Scope Includes: Construct Big Timber Road to a 4-lane cross-section from approximately 800 feet west of Damisch Road to approximately 800 feet west of Coombs Road. Includes an intersection improvement at Damisch with installation of traffic signals.
49	Randall Road – Joy Lane to Huntley Road
	Eligible Scope Includes: Construct Randall Road to a six lane cross-section from approximately 1,000 feet north of Joy Lane to approximately 1,000 feet north of Huntley Road. Includes an intersection improvement at Huntley Road.

Proj. #	Scope
50	Huntley Road – Randall Road to Sleepy Hollow Road
	Eligible Scope Includes: Construct Huntley Road from approximately 1,000 feet east of Randall Road to approximately 800 feet east of Sleepy Hollow Road. Includes intersection improvements at Miller Road, Binnie Road, and Sleepy Hollow Road.
51	Penny Road at IL-68
	Non-Eligible Scope Includes: Addition of a right turn and left turn lane on realignment of Penny Road and installation of traffic signals. Anticipate IDOT cost participation on IL-68 legs.
52	Galligan Road – Binnie Road to Freeman Road
	Eligible Scope Includes: Construct Galligan Road to a 4-lane cross-section from approximately 500 feet south of Binnie Road to approximately 500 feet north of Freeman Road.
54	Randall Road – Huntley Road to Longmeadow Parkway
	Non-eligible Scope Includes: Westbound right turn lanes and traffic signal installation.
	Eligible Scope Includes: Extension of Longmeadow Parkway on a 4-lane cross-section west of Randall to intersect Huntley Road approximately 2,500 feet west of Randall Road, intersection improvements at the intersection of Randall and Longmeadow, and modernization of traffic signals. Improvements on north leg extend to approximately 1,000 feet south of Corporate Boulevard.
55	Longmeadow Parkway Bridge Corridor
	Eligible Scope Includes: Construction of a new 2-lane corridor from approximately 1,000 feet east of Randall Road to approximately 500 feet east of IL-25. Includes new Fox River Bridge. Includes IDOT cost participation and several other State and/or Federal funding sources.
57	Lake Cook Road at IL-62
	Eligible Scope Includes: Addition of right turn lanes on the east and southeast approaches and traffic signal modifications. Anticipate IDOT cost participation on IL-62 legs.
58	Montgomery Road – IL-25 to Hill Avenue
	Eligible Scope Includes: Installation of turn lanes on IL-25 and widening Mill Street/Broadway/Montgomery Road to a 4-lane cross-section from IL-25 to approximately 800 feet east of Hill Avenue. Includes straightening the s-curve at the west end of the project and intersection improvements at Douglas Road, 5 th Street and Hill Avenue. Anticipate IDOT cost participation on IL-25 legs.
59	Harter Road at Scott Road
	Eligible Scope Includes: Addition of turn lanes on all four legs and installation of traffic signals.
61	Peplow Road Realignment with French Road
	Eligible Scope Includes: Construction of a new 2-lane road on new alignment from a point on Peplow Road approximately 1,200 feet north of McGough Road to an intersection with French Road approximately 1,200 feet northeast of Main Street. Includes an overpass of the ICRR and intersection improvements at Burlington Road and Plank Road.

Proj.	Scope
#	Coope
64	Meredith Road Realignment with Peplow Road
	Eligible Scope Includes: Construction of a new 2-lane road on new alignment from a point on Meredith Road approximately 1,500 feet north of Welter Road to an intersection with Peplow Road at IL-64. Includes an intersection improvement at IL-64 with turn lanes on all four legs and installation of traffic signals. IDOT participation anticipated.
66	Orchard Road – Indian Trail Road to Oak Street
	Eligible Scope Includes: Construct Orchard Road to a six lane cross-section from approximately 500 feet south of Indian Trail Road to approximately 1,000 feet north of Oak Street. Widening of the bridge over I-88.
67	Hughes Road at IL-47
	Eligible Scope Includes: Addition of turn lanes on all three legs, and installation of traffic signals. Anticipate IDOT cost participation on IL-47 legs.
69	Harter Road at Main Street
	Eligible Scope Includes: Addition of turn lanes on all four approaches and installation of traffic signals.
70	Main Street – Fabyan Parkway to Nelson Lake Road
	Eligible Scope Includes: Construct Main Street to a 4-lane cross-section from approximately 800 feet east of Fabyan Parkway to approximately 800 feet west of Nelson Lake Road.
71	Main Street – Nelson Lake Road to Randall Road
	Eligible Scope Includes: Construct Main Street to a 4-lane cross-section from approximately 800 feet west of Nelson Lake Road to approximately 800 feet west of Randall Road. Includes intersection improvements at Nelson Lake Road, Wenmoth Road, and Deerpath Road with turn lanes and traffic signal installation. See project #11.
72	Kirk Road – Lathem Street to South of Fabyan Parkway
	Eligible Scope Includes: Addition of turn lanes from approximately 500 feet south of Lathem Street to approximately 500 feet south of Fabyan Parkway.
74	Galligan Road Realignment South of Huntley Road
	Eligible Scope Includes: Two thru lanes.
75	Randall Road – Main Street to Keslinger Road
	Eligible Scope Includes: Construct Randall Road to a six lane cross-section from approximately 1,000 feet south of Main Street to approximately 1,000 feet north of Keslinger Road. Includes the intersection improvement at Fabyan Parkway, Keslinger Road and widening the UPRR overpass. See project #19.
76	Randall Road – Keslinger Road to IL-64
	Eligible Scope Includes: Construct Randall Road to a six lane cross-section from approximately 1,000 feet north of Keslinger Road to approximately 1,000 feet south of IL-64. Excludes the Randall Road at IL-64 intersection. See project #24.

Proj.	Scope
#	
78	Randall Road – Big Timber Road to Joy Lane
	Eligible Scope Includes: Construct Randall Road to a six lane cross-section from approximately 1,000 feet north of Big Timber Road to approximately 1,000 feet north of Joy Lane. Includes intersection improvements at the I-90 ramp terminals, Point Boulevard and Northwest Parkway/Joy Lane; and reconstruction of the I-90 overpass.
79	Randall Road – Huntley Road to South Corporate Boulevard
	Eligible Scope Includes: Construct Randall Road to a six lane cross-section from approximately 1,000 feet north of Huntley Road to approximately 1,000 feet south of South Corporate Boulevard.
80	Plank Road Realignment
	Eligible Scope Includes: Realignment of Plank Road at Burlington Road in Burlington to eliminate offset. Includes addition of turn lanes on all four legs of Plank Road and Main Street.
81	Randall Road - Silver Glen Road to South Street
	Eligible Scope Includes: Construct Randall Road to a six lane cross-section from approximately 1,000 feet south of Silver Glen Road to approximately 1,000 feet south of South Street. Excludes the ICRR overpass, see CRIP project #34.
82	Orchard Road – Oak Street to Randall Road
	Eligible Scope Includes: Construct Orchard Road to a six lane cross-section from approximately 1,000 feet south of Oak Street to Randall Road. Includes Oak Street and Randall Road intersection improvements.
84	Huntley Road – County Line Road to Randall Road
	Eligible Scope Includes: Construct Huntley Road to a 4-lane cross-section from approximately 500 feet west of Kreutzer Road to approximately 800 feet west of Randall Road.
85	Kirk Road at IL-56
	Eligible Scope Includes: Right turn lanes on westbound, northbound and southbound legs of intersection; Three thru lanes and double left turn lanes on the north and south approaches, and two thru lanes, double left turn lanes and right turn lanes on the east and west approaches. Anticipate IDOT cost participation on IL-56 legs.
87	Kirk Road at IL-64
	Eligible Scope Includes: Three thru lanes and double left turn lanes on the north and south approaches, and two thru lanes, double left turn lanes and right turn lanes on the east and west approaches. Anticipate IDOT cost participation on IL-64 legs.
88	Dunham Road –Stearns Road to High School entrance south of Fox Chase Drive.
	Eligible Scope Includes: Addition left and right turn lanes on Dunham Road from approximately 500 feet south of Stearns Road to the high school entrance south of Fox Chase Drive. Includes widening the ICRR overpass.
89	Kaneville Road at Peck Road
	Eligible Scope Includes: Permanent traffic signal installation and Channelization.

Proj. #	Scope
90	Fabyan Parkway – Western Avenue to Kirk Road
	Eligible Scope Includes: Left turn and right turn channelization along Fabyan Parkway approximately from 1,000' east of Western Avenue to 1,000' west of Kirk Road where appropriate; Excludes the Fabyan Parkway at IL 31, Fabyan Parkway at IL 25, and Fabyan Parkway at Kirk Road intersections and the Fox River bridge widening.

Section 5: Funding Sources

Table 5-1: Annual Projected Highway Revenue, FY 2007-2011

	FY 2007	FY 2008	FY 2009	FY 2010	FY 2011
County Highway Levy	\$5,846,789	\$6,139,128	\$6,446,085	\$6,768,389	\$7,106,809
County Bridge Levy	\$304,406	\$319,626	\$335,608	\$352,388	\$370,007
County Highway Matching Levy	\$63,203	\$66,363	\$69,681	\$73,165	\$76,824
Motor Fuel Tax	\$6,755,874	\$7,026,109	\$7,307,153	\$7,599,439	\$7,903,417
Impact Fees	\$3,780,000	\$3,780,000	\$3,780,000	\$8,000,000	\$9,000,000
Local Option Motor Fuel Tax	\$7,275,000	\$9,375,000	\$9,656,250	\$9,945,000	\$10,243,000
Reimbursements	\$24,097,949	\$25,746,950	\$12,895,846	\$3,268,079	\$2,963,306
Fees	\$450,000	\$450,000	\$450,000	\$450,000	\$450,000
Interest	\$874,750	\$446,636	\$456,848	\$456,848	\$642,361
Total Projected Revenue	\$49,447,971	\$53,349,812	\$41,397,471	\$36,913,309	\$38,755,724

Table 5-2: Projected Highway Revenue, FY 2012-2015

	FY 2012-2015
County Highway Levy	\$32,162,796
County Bridge Levy	\$1,674,517
County Highway Matching Levy	\$0
Motor Fuel Tax	\$34,904,037
Impact Fees	\$40,000,000
Local Option Motor Fuel Tax	\$44,055,000
Reimbursements	\$57,641,788
Fees	\$1,800,000
Interest	\$1,773,606
Total Projected Revenue	\$214,011,744

Section 6: Intergovernmental Agreements

The Illinois Road Improvement Impact Fee Law allows counties to collect Impact Fees from developers of New Development for the impacts of that New Development on State, Township and Municipal highways, roads and streets, provided that the County enters into an intergovernmental agreement with the appropriate agency covering the collection and expenditure of the Impact Fees. Kane County has elected to collect impact fees only for the development impact on the County highway system; therefore no such intergovernmental agreements are necessary.

In the event that improvements are made to a State, Township or Municipal highway, road or street as part of a project funded by Impact Fees, the County and the appropriate unit of government will enter into an intergovernmental agreement that defines the project and specifies its funding sources. Furthermore, any improvements made to State, Township or Municipal highways, roads or streets will only be funded by Impact Fees to the extent needed to address the safe and efficient operation of an adjacent Kane County highway intersection.

Section 7: Proposed Road Improvement Schedule

Table 7-1: Proposed Road Improvement Schedule
