

LUMINAIRE SHIELD

Updated: 12/01/2023

Description.

This work shall consist of furnishing and installing an external residential house side or street side shield to a new or existing luminaire at locations as shown in the Plans.

General.

The proposed shield shall be provided by the proposed luminaire manufacture and shall reduce illumination from the proposed luminaire on nearby residences at locations as shown on the Plans. The external shield shall be installed in accordance to the luminaire manufacture's recommendations.

Basis of Payment.

This work will be paid for at the contract unit price per EACH for LUMINAIRE SHIELD.
