Hughes Road Bridge Work Scheduled to Begin November 2nd

October 30, 2026 - The Kane County Division of Transportation (KDOT) is scheduled to begin work on Hughes Road over Blackberry Creek, approximately 385 feet east of Pouley Road, the week of November 2, 2026, weather permitting.

The work will involve temporary shoring of the bridge in preparation for permanent beam replacement scheduled for spring 2027. A temporary shoulder closure will be necessary to provide a safe work area for construction crews. This phase of work is expected to be completed by the end of November.

Traffic may be reduced to one lane at times, with flaggers directing motorists through the work zone. Motorists should anticipate delays and allow additional travel time.

Visit our Traffic Advisories webpage for more information on road closures, detours, and active KDOT projects.

Motorists should expect delays while traveling through the work areas, consider alternate routes and expect additional commute time. Motorists are asked to reduce their speed, watch for construction workers and vehicles entering and leaving the site and obey flaggers and traffic control devices. ***It is illegal to talk or text on a cell phone while driving.***
