Kirk Road PCC Repair Project Scheduled Beginning April 6th

April 1, 2026 - The Kirk Road Portland Cement Concrete (PCC) Repair project is scheduled to begin the week of April 6th, weather permitting, along Kirk Road from IL Route 64 to IL Route 38. The work will include PCC patching, ADA sidewalk ramp improvements, concrete median removal and replacement, and concrete curb and gutter removal and replacement.

Construction is anticipated to be completed by the end of July, weather permitting.

Work hours will be from 7:00 a.m. to 5:00 p.m., Monday through Saturday. Kirk Road will remain open to traffic; however, lane closures will be necessary and will vary throughout the project. These closures are expected to impact traffic in the area. Flaggers will be present as needed to direct traffic safely through the work zone.

Visit our [Traffic Advisories](#) webpage for more information on road closures, detours, and active KDOT projects.

*Motorists should expect delays while traveling through the work areas, consider alternate routes and expect additional commute time. Motorists are asked to reduce their speed, watch for construction workers and vehicles entering and leaving the site and obey flaggers and traffic control devices. **It is illegal to talk or text on a cell phone while driving.***
