UPDATED - Fabyan Parkway at Western Avenue Intersection and Multi-Use Path Reconstruction

May 22, 2024 - Beginning the week of Monday, May 27th, weather permitting, pavement removal work on portions of the Fabyan Parkway at Western Avenue intersection will begin. Traffic will be reduced to one way travel in each direction in order to give crews room to safely work for the duration of the project which is expected to be completed in the fall of 2024. This portion of the work involving pavement removal and installation of temporary pavement is expected to be complete in approximately two (2) weeks.

The above-mentioned roads will be reduced to one lane of travel in each direction for the duration of the project. This work may also require short term and temporary daily lane closures primarily from 7:00 A.M. to 5:00 P.M. Monday through Saturday.

Visit our [Traffic Advisories](#) webpage for more information on road closures, detours, and active KDOT projects.

*Motorists should expect delays while traveling through the work areas, consider alternate routes and expect additional commute time. Motorists are asked to reduce their speed, watch for construction workers and vehicles entering and leaving the site and obey flaggers and traffic control devices. **It is illegal to talk or text on a cell phone while driving.***
