

Annual Asphalt Rejuvenator Program Scheduled to Begin June 22nd

June 18, 2026 - The Kane County Annual Asphalt Rejuvenator Program is scheduled to begin the week of June 22, 2026, weather permitting. The program applies an asphalt rejuvenator to roads that were resurfaced within the last year to help extend the life of the pavement.

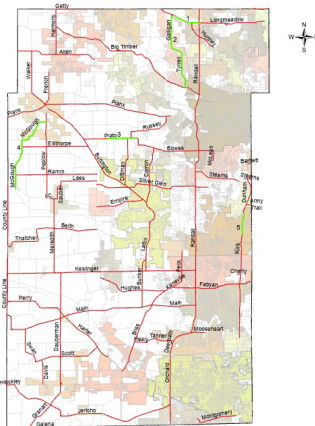

The process includes applying a rejuvenator liquid, allowing it to cure, placing sand on the treated roads for traction, and then sweeping up excess material following completion of the treatment. This preventative maintenance reduces oxidation of the asphalt and helps prevent water from seeping into the pavement, protecting against freeze/thaw damage during the winter months.

Work is expected to occur Monday through Friday between 7:00 a.m. and 4:00 p.m. Treatment operations will progress from location to location, and the schedule and sequence of work are subject to change based on weather and operational needs. Roadways included in this year's program are:

- Huntley Road
- Galligan Road / Tyrrell Road
- Plato Road
- McGough Road
- Kirk Road (9:00 a.m. to 3:00 p.m.)

Roadways will remain open during treatment; however, temporary lane closures may be necessary, and traffic may be reduced to a single lane with the use of flaggers. Motorists should expect delays and are encouraged to use caution in work zones, watch for crews and equipment, and follow directions from flaggers.

2026 Rejuvenator Program

A Kane County highway map that shows five locations for the 2026 Kane County rejuvenator program. The five locations are shown in the table below as well as above on the map.

Section Number 26-00000-02-GM				
	Location	From	To	
1	Huntley Rd	Square Barn	Randall Rd	
2	Gallatin Road/Tyrell Road	Big Timber Rd	Approx. 1200-ft S of Huntley Rd	
3	Plato Road	Approx. 680-ft E of IL 47	41W450 Plato Rd Driveway	
4	McGough Road	IL 64	Peplow Rd	
5	Kirk Road	Approx. 300-ft S of IL 64	Approx. 780-ft S of Dunham Rd	

Visit our [Traffic Advisories](#) webpage for more information on road closures, detours, and active KDOT projects.

Motorists should expect delays while traveling through the work areas, consider alternate routes and expect additional commute time. Motorists are asked to reduce their speed, watch for construction workers and vehicles entering and leaving the site and obey flaggers and traffic control devices. **It is illegal to talk or text on a cell phone while driving.**
